RESPONSE TO LINE 510 - SERVICE QUALITY STANDARDS

**AND CONSUMER PROTECTION RULES COMPLIANCE
(Voice and Broadband)**

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

The Rye Telephone Company (“Rye”) hereby certifies that its voice service complies with applicable service quality standards and consumer protection rules. Rye complies with consumer protection obligations under Colorado state law. Specifically, C.R.S. 6-1-101 (2013), Colorado Consumer Protection Act protects consumers and businesses against fraud and maintains a

competitive business environment by enforcing state and federal consumer protection laws; enforcing state and federal antitrust laws; and advocating on behalf of residential and small business taxpayers.

Rye is regulated by the Code of Colorado Regulations, 4 CCR 723-2, Rules Regulating Telecommunications Providers, Services, and Products. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff which discloses rates, terms and conditions of service to customers (2) adherence to Quality of Service Standards, and (3) conforming to Customer Billing standards.

Rye is also subject to federal truth-in-billing requirements, has implemented CPNI and Red Flag Rules policies, and is complying with other applicable federal and state requirements governing the protection of customers' privacy.

Rye is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order*, as it applies to the Company.

RESPONSE TO LINE 610 – ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

(Voice and Broadband)

The Rye Telephone Company (“the Company”) hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).¹ The Company’s voice and broadband network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company’s central office can maintain eight hours battery reserve rated for peak traffic load requirements, and a permanent auxiliary power unit is installed which can be delivered and connected within four hours. The Company has battery backup at all office locations and in its electronic equipment sites. The Company tests the batteries at least once per year, and length of run time is determined by the equipment serving the area and the number of customers supported by the equipment.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

The Federal Lifeline Program is a retail local service offering designed to make telephone and/or broadband service available at reduced rates to qualifying low-income customers.

(A) General

- (1) A qualifying low-income customer subscribing to designated Federal Lifeline Program Services, as outlined below, is eligible to receive federal reductions to either his/her monthly tariffed residential local exchange access line rate and federal subscriber line charge or his/her monthly retail rate for an eligible broadband service. The qualifying low-income customer can only receive one federal discount on one service option.
- (2) Nothing in this section shall prohibit a customer who is otherwise eligible for the Federal Lifeline Program from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications service.

- (4) The Company may not disconnect the service of a Federal Lifeline Program customer for the non-payment of toll charges unless the Company has received a waiver from the Commission allowing disconnection of service for this reason.
- (5) Upon subscribing to the Federal Lifeline Program, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking.
- (6) The Company will waive number portability charges, subject to the tariff, for the Lifeline customer.
